## Learning Tasks

Nine thematic modules and the accompanying Assignment Booklets have been designed to involve your student in learning tasks that are personally relevant, open-ended, and challenging.

## Reporting Student Progress

A range of assessment tools (for example, activity samples, journal entries, audiocassettes, self-evaluation, and learning logs) will help you gather information on your student's ability to understand and apply curriculum skills and concepts. Through written comments and conversations, the teacher will provide an evaluation of your student as a developing learner. In addition, a subject letter grade will relate your student's performance to curriculum standards.

Have the student work carefully. If your student is having difficulty, reread the appropriate teaching information and then have the child review the activity.

## Directions for Home Instructor and Student

Directions in this Assignment Booklet are generally written for you to read with the student. For certain assignments, home instructor directions are also required. Text for **you** is in one type style. Text for **you and the student** is in a different type style and is indented. See the example that follows.

Text for you and the student
